Allen James Vidal

allenjamesvidal04@gmail.com 09634856084 Taal, Batangas

PROFILE

Data professional with experience across data processing, analytics, reporting, and automation. Passionate about turning complex information into meaningful insights, improving processes, and building practical solutions. Driven by continuous learning and a mission to make data more useful, accessible, and impactful in everyday decision-making.

PROFESSIONAL EXPERIENCE

Unilever 08/2025
Data Specialist Bonifacio Global City, Taguig

- **CRM Data Platform:** Built a working centralized CRM data platform in Microsoft Fabric using Medallion Architecture.
- **Interactive Applications:** Developed Streamlit applications to make Python-based data tools easier to use and accessible to non-technical users.
- **Location Intelligence:** Built a Python tool using OpenStreetMap to retrieve points of interest and geographic insights from locations or coordinates.
- **Automated Reporting:** Streamlined monthly report generation using Python and DuckDB, reducing manual data preparation and reporting steps.
- **Machine Learning:** Developed a SKU auto-tagging prototype using TF-IDF and Logistic Regression to explore automated product classification.
- **Web Scraping:** Automated government data collection using Python web scraping to gather structured information for planning and analysis.
- **Business Intelligence:** Created Excel and Power BI dashboards to monitor workloads and track operational performance.
- **Data Preparation:** Tagged, classified, and validated SKU records in Excel using structured category hierarchies and CRM/POS reference data.

Philippine Statistics Authority (PSA) 10/2024 – 06/2025
Map Data Processor Batangas City, Batangas

- Processed and validated GIS-based census data using **QGIS and QField**
- Performed building digitization, map updates, and enumeration area (EA) delineation
- Ensured accuracy of geospatial datasets to support national census operations

SKILLS

Programming & Data Processing
- Python, Pandas, SQL, PySpark
- Data Cleaning, Transformation, Validation

Data Engineering
- Microsoft Fabric, Delta Tables, DuckDB
- Medallion Architecture, ETL/ELT, Data Ingestion

Business Intelligence & Reporting
- Power BI, Excel
- Dashboard Development, Report Automation, Data Visualization

Application Development & Automation
- Streamlit, Playwright, Web Scraping, pdfplumber
- Workflow Automation, Data Extraction

Machine Learning & Geospatial
- scikit-learn, TF-IDF, Logistic Regression
- QGIS, QField, OpenStreetMap, GIS

EDUCATION

BSBA Major in Business Economics 08/2020 – 08/2024
Batangas State University (BSU)
- Dean's Lister
